

Best Practices

POLAND

COMPANY NAME Rabat Rolniczy Sp. z o.o.

SME consultancy

START2ACT TOOL

ENERGY SAVING MEASURES

- Switching-off equipment (during breaks/night),
- Switching-off lights (when not needed),
- Reducing standby consumption,
- Turning to natural ventilation,
- Limiting room temperature,
- Reducing printing,
- Lightbulbs replaced by LEDs.

MOTIVATION

After the START2ACT on-site consultancy took place, the management of the company was highly motivated to reduce their energy bill and to promote energy efficiency among staff members in their office. Thanks to START2ACT tips, a high potential for energy savings was noticed.

Employees were encouraged to implement non-technical measures in their office using the START2ACT tools and suggestions and later they learned what results were achieved at the company..

RESULT

After implementing non-technical energy efficiency measures and replacing the lightbulbs by LEDs in the president's office and conference/meeting room, Rabat Rolniczy Sp. z o.o. noticed a reduction of company's energy bill by 8%.

By engaging employees into energy saving activities, the company contributed to the mission of promoting energy efficiency at the office.
